

Join us to celebrate **#InspiringFutureTheatre** day on 11 July

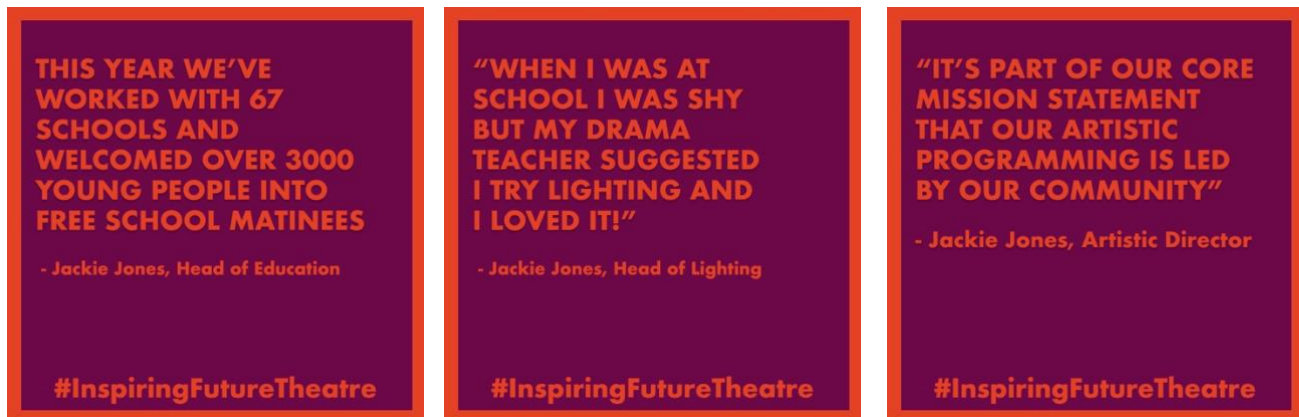

Inspiring the Future of Theatre aims to showcase the range of careers available in theatre to young people and encourage and strengthen connections between schools and their local theatres.

We'd love you to get involved on social media by using the hashtag #InspiringFutureTheatre to tell the world about the amazing work you do to inspire young people in your community.

This could be highlighting the programmes you run throughout the year or inspiring projects you run with schools and young people.

Here are some ideas on how you can get involved:

- Use one of our templates to share a quote from a member of your team who has already signed up to the Inspiring Future Theatre campaign or details from your programme, i.e.

- Share your best learning resource and tag #InspiringFutureTheatre
 - This could be a video from a recent programme
 - Or a trailer for an upcoming programme
 - Or you could share your education web page
- Share details of your projects
 - This could be the number of participants you've engaged
 - The number of schools you work with
 - The number of free tickets given to young people

Also, if you or your organisation is yet to sign up to be an ambassador, please do so here - <https://www.inspiringthefuture.org/inspiring-the-future-of-theatre/>
