

TRADE WITH THE UNITED KINGDOM: HOW TO MAKE A SUCCESSFUL IMPORT THANKS TO THE SMART BORDER?

1 Make sure you followed all the necessary steps to cross the border

In order to benefit from the smart border system deployed in France for the exchange of goods with the United Kingdom and to avoid being stopped when crossing the border, it is necessary to anticipate and prepare all customs formalities ahead of any commercial exchange with the United Kingdom.

2 Make sure all your customs formalities are well prepared

To enter the customs territory of the European Union, through the smart border, customs formalities have to be carried out. Some customs documents have to accompany the goods and should be presented during the pairing stage, before embarking.

 RÉPUBLIQUE FRANÇAISE	
N° Déclaration douane anticipée	2003896810
Code-barres	 2003896810

IMPORT DECLARATION

- The import declaration must be pre-logged in Delta G before boarding, then validated during the crossing.
- The driver must present, during the pairing stage, the barcode of the declaration.

EUROPEAN COMMUNITY		DECLARATION
Carrier (S07) N°		IM
Id and Nationality of means of transport (21)		Form 0
ITP	Nationality	001 0
transp. mod	Coiv. ref. Number (S10)	Reference no
2	06/01/2021 09:00	Itinerary (S1)
Orig. Exit (29)	Lodgment off. (30)	GB FR
	Actual let off. (S11)	Marks (S22)
Subseq. Offices (S11.2)		
Consignee(security) (S06) N°		Notify Party
Consignor(security) (S04) N°		Pl. of loading

ENTRY SUMMARY DECLARATION (ENS)

- The ENS must be submitted for safety and security purposes, before the arrival of the transport unit at the place of departure.
- This ENS does not accompany the goods and is not presented during the pairing stage.

 International Road Transport Union
CARNET TIR *

1. Valable pour prise en charge par le bureau de douane de départ jusqu'à
Valid for the acceptance of goods by the Customs office of departure up to and including

2. Délivré par
Issued by

3. Titulaire
Holder

TIR OR ATA CARNET

- TIR and ATA carnets are documents in a paper format that replace customs formalities normally required for some operations (temporary import and export, transit).
- Those documents have to accompany the goods that are transported. During the pairing stage, the driver must indicate that the goods are covered by a TIR or ATA carnet.

Transit - Accompanying Document	1 REGIME	T1
	2 Consignee / Exporter No.	
	3 Form	001 001
	4 Consignee No.	
5 Items	1	6 Tax
7 Country of destination	GB	Return copy has to be
8 Country of departure	GB	10 Country of destination
9 Identity and nationality of means of transport at departure	GB	11 Other incidents during transit

TRANSIT DECLARATION

- Two types of declaration : the common transit declaration or the Union transit declaration.
- The Transit Accompanying Document (TAD) must accompany the goods and should be presented by the driver during the pairing stage, before embarking.

3 The logistics envelope: a simple tool to group together declarations

The logistics envelope can be created for import, export or transit. It saves time during the pairing stage by grouping several declarations under a single barcode that is scanned, instead of having multiple barcodes scanned.

HOME PAGE FOR CREATING A LOGISTICS ENVELOPE

Create envelope

CREATE ENVELOPE

An envelope of declarations or envelopes that will be transported in the same transport unit (truck, trailer, etc.). At check-in of the transport unit, the driver will be able to present the barcode of this envelope and will not have to present all the declarations or envelopes.

EXAMPLE OF A LOGISTICS ENVELOPE TO PRESENT DURING THE PAIRING STAGE

ENVELOPE DETAILS

The barcode of the envelope must be presented at the check-in of the transport unit. Be sure to provide it to the driver.

Declarations and envelopes

739	2001972308	2001975884
-----	------------	------------

The logistics envelope can be accessed from any computer or mobile device on the French customs website douane.gouv.fr.

GOOD TO KNOW:

1. The logistics envelope is particularly suited for groupage.
2. A logistics envelope can hold several other envelopes.
3. Some documents cannot be added in the logistics envelope: entry summary declaration, export declarations mixed with import declarations, United Kingdom import and export customs documents.
4. The logistic envelope allows the security of the data by anonymizing the declaration(s) it contains in the form of a barcode.
5. The logistics envelope is free and very easy to access.

4

Five mistakes to avoid for a successful import

Presenting an Entry Summary Declaration (ENS) or a United Kingdom export declaration during the pairing stage

Forgetting to validate the import declaration during the crossing, after the reception of the boarding notification

Forgetting to fill in the reference of the Common Health Entry Document (CHED) and the associated document code on the import declaration or the transit declaration

Forgetting to indicate a French BREXIT office as the office of transit in the common transit declaration

Forgetting to indicate the United Kingdom as the country of dispatch in the EU transit declaration
